**Step 3: From the Research Databases screen, scroll down to Legal Information Source. Click “here” to access this database remotely.**

**REMOTE RESOURCES**

**LA Law Library is pleased to offer remote access to valuable databases!**

In our continuing efforts to reach those we serve wherever they are, we are excited to offer access to a limited number of resources remotely – whether from your home, office, school, neighborhood library or anywhere else with internet access. Our currently available remote databases are listed below.

**EBSCO Legal Information Source (LIS)**

The LIS database offered by EBSCO allows for remote access to Nolo Press titles. Nolo Press specializes in resources for people who will be representing themselves in court or who need to address a legal issue without the help of an attorney.

To access LIS, please click the link below. When you reach the login page, please use the credentials as provided in this PDF document: [CLICK HERE](#)

**LexisNexis Digital Library**

LA Law Library is also very excited to offer remote access to eBooks through the LexisNexis Digital eBooks platform! You can now borrow digital copies of Lexis books using your library card without visiting the Library in-person.

To access this service, click the link below and, when you arrive at the sign in page, choose the “Library Card Access” option. Enter your library card number. You will be able to borrow seven eBooks at a time, for up to seven days. Renewals are available for eBooks, unless another library card holder has placed a hold on the title. Books will automatically be removed from your account at the end of the loan period. For additional information, please review the following PDF document: [CLICK HERE](#)

RESOURCE	DESCRIPTION
Legal Information Source	Searchable full text database of Nolo Press self-help publications. <a href="#">Click here to access this database remotely.</a>
